Open call for PhD Students classes in English

No. 1/2021

Warsaw University of Technology (WUT) would like to provide a wider offer of courses in English for PhD students, including highly specialised classes (e.g. power electronics) and soft skills workshops (e.g. obtaining and managing technical research projects).

The preparation of materials for PhD Students (e.g. scripts) and presentations for classes are co-financed within the SEED-STER Project in the amount of PLN 6,000 each.

The decision whether to grant the co-financing is made by the SEED-STER Project Management Board after consultation with WUT “Excellence Initiative – Research University” priority research areas representatives.

The courses shall be included in the didactic offer for PhD students and shall launch in the 2021/2022 academic year.

The number of courses to be co-financed: up to 10.

Important dates:

Deadline for submission of the proposals: May 16, 2021

Expected day of announcing the results: May 31, 2021

Deadline for implementation of the task:

Fall semester - August 31, 2021

Spring semester - December 31, 2021

The submission form is available via MS Forms: <https://forms.office.com/r/tnsSTQ9Fxm>
